Superintendent -Emergency Response Crew Manager

Description

Crew Managers are responsible for maximizing crew efficiency while maintaining a safe work environment. Crew Managers will be tasked with management of a wide variety of crews; debris removal, environmental remediation, woody debris clearance, grading crews, disposal facility management, etc.

Responsibilities

- Serve as the primary contact between the crew lead and the oversight technicians to resolve any potential problems prior to the problem impacting the productivity of the crew.
- Provide guidance for the crews for removal efforts and final site clearances
- Interface with the client, oversight crews, and homeowners in a calm, professional manner at all times.

Qualifications

- 5-10 years of construction experience.
- Current 40 Hour OSHA Hazwopper certification or the ability to obtain one.
- Ability to leave at a moment's notice and travel to a disaster zone within 36-48 hours of notification.
- Strong communication skills.
- Ability to function in remote areas with little to no supervision.
- Ability to work 10-12 hour days, 6-7 days a week for extended time periods.
- Environmental remediation experience not required, but candidates with previous environmental experience will be given preference.
