RE: Reference Regarding Luke Matzke

To Whom It May Concern:

This letter is being provided as a reference regarding the work of Luke Matzke. I have had the opportunity to work closely with Luke on an ongoing high profile redevelopment project, at which he has the primary responsibility of implementing approved plans and designs. Luke's knowledge and expertise in the areas of construction and environmental cleanup have been an asset to the project, allowing him to understand and balance the sometimes conflicting requirements of site redevelopment and corrective action. Time and again he has acted to quickly resolve any concerns or issues I have raised, and has been able to move the project forward while incorporating necessary changes. Through his commitment to the project, his honesty, and his "consider it done" attitude, Luke has gained my trust and respect. Based on my observations and interaction with others working on the project, it is clear that Luke is also respected and highly regarded by his peers and the subcontractors working at the site.

Luke's expertise and professionalism are valued and appreciated. The success of the project thus far can be largely attributed to his involvement and his ability to work collaboratively with other key project personnel.

If you have any questions regarding this letter, please contact me at (303) 692-3357.

Sincerely,

Colleen Brisnehan
